August sees new restrictions in place

Due to the ever changing environment we are experiencing with COVID-19, the Public Health (Jervis Bay Territory) Emergency Direction (No. 8) 2020 was updated again to ensure our community remains protected and safe. Currently, there are still no COVID-19 cases in the JBT community and it is important we keep it this way by maintaining physical distancing and having good hygiene practices.

New restrictions as of 6 August 2020

1. JBT venues such as cafes, restaurants and food and drink premises have to comply with the same restrictions as pubs across NSW. For example, group booking/arrival limits of 10 people and COVID safety plans in place (such as collecting information off guests for contact tracing if required).

2. JBT residents who have been in COVID-19 hotspots locations (as identified in ACT public health directions on interstate hotspots) must self-isolate for 14 days (unless exempt).

3. A person who has been to a COVID-19 hotspot, who is not a JBT resident, is not authorised to enter JBT and must leave JBT if asked to do so by an emergency services officer.

4. These COVID-19 hotspot restrictions do not apply to persons who have completed 14 days quarantine in another State or Territory, or if they are providing an emergency or law enforcement service.

JBT State of Emergency extended

The Declaration of State of Emergency (Jervis Bay Territory) (No. 7) 2020 has been extended until 1 September 2020. It is important everyone takes responsibility during this time to protect the elders and vulnerable members of our community. This Declaration assists key members of the JBT Emergency Management Committee (EMC), and Emergency Services supporting the JBT, to manage any risk from COVID-19. The health and wellbeing of the community is the first priority.

The directions and declarations can be seen here:
Stay up to date

Restrictions in the JBT are regularly changing so scan the QR code below to stay up to date on the latest COVID advice and Public Health Directions.

Protecting your mob

COVIDSafe App for mobile phones helps protect our mob from coronavirus. The more people who use the app, the better it works so visit the Apple or Google Play store and download today.

Medical Assistance

Please call 000 for urgent medical assistance e.g. difficulty breathing.
